PERSONAL PROJECTS

•Company Website

An interactive and user-friendly website that effectively showcased the company's products and services.

June 2023

[Website Link](#)

– Tools & technologies used: HTML, CSS, Javascript, XAMPP

- My proficiency in implementing responsive design, CSS animations, and JavaScript interactivity played a pivotal role in enhancing the user experience.
- I employed XAMPP as a local development environment, ensuring efficient testing before deployment.
- This project reflects my proficiency in front-end development and my commitment to creating engaging digital experiences.

•Stories Fun Website

Designed and developed a clean and modern website using Web Technologies

May 2023

[GitHub Repo](#)

– Tools & technologies used: HTML, CSS, Javascript, PHP, MySQL, Git

- Optimized website for speed and user experience.
- Utilized responsive design to ensure compatibility across all devices.
- Deployed on GitHub pages via GitHub Actions.
